

Residential Valuers and Building Surveyors

we're looking for you...

Throughout these challenging market conditions e.surv have remained the largest distributor of valuation work in the UK. Our growing market share, combined with continuing changes in the market structure, means that we are now looking to strengthen our operation in specific locations.

Our strong client base reflects panel management contracts with high profile lenders combined with our quality driven approach. Excellent rewards include first class salary, pension, holidays and all the benefits expected with a top class employer.

We are seeking additional full or part time surveyors in Northern Scotland and North Wales. Prime consideration would be given to those with experience of these local markets. We would also welcome applications from those interested in consultancy or zero hours employment, in the above locations, or elsewhere in the UK.

If you feel you have the skills that would be of value to e.surv now or in the future please feel free to send in your details.

Want to know more?

In the first instance, please email your CV to tina.beale@esurv.co.uk
